**Military Rd S & S 298th St
Compact Roundabout Project**

Military Rd S & S 298th St Compact Roundabout Project

What: The City of Federal Way has awarded the construction of the Military Rd S & S 298th St Compact Roundabout Project to Active Construction, Inc. Project construction will result in a compact roundabout with a fully mountable center island at the intersection of Military Rd S & S 298th St. This project will provide sidewalks at the intersection, improved street lighting, and ADA ramps. The project also involves grinding of the existing pavement and placement of an asphalt overlay through the intersection.

When: Construction will start in October 2018. The work is weather-dependent, so the project will likely be placed on hold during the winter weather season and will resume work in spring 2019. The project is anticipated to be completed by summer 2019.

WHY DID YOU RECEIVE THIS NOTICE?

This mailing is being sent to all properties within 300' of the construction project to inform you of the upcoming work.

Construction impacts: Possible impacts to the traveling public may include temporary lane and sidewalk closures. Two-way traffic will be maintained along Military Rd S at all times.

If you have questions or concerns about this project, please contact:

Christine Mullen, P.E., Street Systems Project Engineer for the City of Federal Way
